STEP 3

In the Garage:

These factors must be determined prior to mounting OHD Anywhere™ (DCM) to the wall or ceiling.

1. Optimal Wi-Fi signal strength.
If an optimal signal cannot be located within the garage, move the wireless router closer to the garage or install a Wi-Fi range extender (available from most electronic stores)

2. Desired DCM location.

3. Access to 110VAC outlet within 5 feet.

1. Plug Power Pack into wall outlet and DCM near the chosen mounting location.
The WI-FI signal indicator LED should illuminate signaling that the Wi-Fi signal is still in tact.
   - A **GREEN** LED indicates a good Wi-Fi signal.
   - A **RED** LED, indicates a lost or faulty signal. Move OHD Anywhere™ to a position that better suits the Wi-Fi signal from the router. Contact Customer Service for further assistance. (1-888-901-2750)
2. Once an **optimal** signal and location is obtained, **UNPLUG Power Pack** from the DCM and continue to **STEP 4**.
